

SOVEREIGN OS · NEXT-STEP EXECUTION DELIVERABLE

CRM/Ad-Ops Technical Implementation Packet

Operational specification for the CRM and ad-ops team. Covers TS-10 scoring-rule configuration, Meta ad-set buildout, Google ad-group structure, conversion tracking, CRM routing, and A/B test calendar.

DOCUMENT TYPE	Technical Implementation Packet
AUDIENCE	CRM Team + Ad-Ops Team
CLASSIFICATION	Internal · Technical · Pre-Launch
PRIMARY INPUT	TS10_targeting_scoring.md + AC09_V2_ad_copy.md + FF08_prescreen_intake.md
PRIMARY OUTPUT	Deployed scoring engine + 8 Meta ad sets + 12 Google ad groups + CRM routing rules
CRITICAL EVENT	Tier_Routed_A_or_B (NOT Form_Complete) — locks before launch
TIMELINE	Week 0-2: gates clear + buildout. Week 3: launch. Week 4+: weekly review.

SECTION 1

Implementation Overview

This packet is the technical implementation specification for the CRM and ad-ops team. It assumes familiarity with the Master Brief and the swarm outputs. The packet covers four implementation tracks: TS-10 scoring-rule configuration (CRM team), Meta ad-set buildout (ad-ops team), Google ad-group structure (ad-ops team), and conversion tracking + A/B test calendar (joint). The single most important implementation decision is the conversion-tracking event selection: Tier_Routed_A_or_B is the optimization event, not raw Form_Complete. If this is configured incorrectly, the ad platforms will optimize for volume rather than quality and the cost per funded loan will degrade within 30 days.

Implementation Timeline

Week	Track	Activity	Owner	Output
W0	All	Pre-launch gates: Compliance (G1) + Platform (G2) + Operational (G3) + Tech (G4)	All teams	4 gates cleared
W1	CRM	TS-10 scoring-rule config in CRM (8 components + 27 modifiers + 4-tier routing)	CRM team	Scoring engine live
W1	Ad-Ops	Meta ad account: SAC HOUSING designation + 8 ad sets built (not launched)	Ad-ops team	8 ad sets ready
W1	Ad-Ops	Google Ads: housing certification + 12 ad groups built (not launched)	Ad-ops team	12 ad groups ready
W2	Joint	Conversion tracking pixel deployment + Tier_Routed_A_or_B event config	CRM + Ad-Ops	Tracking live
W2	Joint	Landing page deployment (3 persona pages for M1: SA-002, SA-001, SA-004)	CRM + Ad-Ops + Content	3 landing pages live
W2	Joint	A/B test calendar load (18 tests for M1: 6 hooks × 3 personas)	Ad-Ops	Test calendar loaded
W3	All	Campaign launch: top-3 personas on Google + Meta + LinkedIn (SA-002 only)	All teams	Campaigns live
W4 +	All	Weekly performance review + optimization	All teams	Weekly dashboard

SECTION 2

TS-10 Scoring Rule Configuration (CRM Team)

The TS-10 scoring engine consumes FF-08 form inputs and outputs a 0-100 score plus a tier routing. The CRM team configures this as a workflow rule that triggers on form submission. The scoring logic is deterministic and must match TS-10 Part 1 exactly. The binding compliance constraint is that "I'd rather not say" responses on Q-006 (FICO) and Q-012 (decline-letter) must NOT trigger downward score adjustments; this is Reg B § 1002.5(b)(1) and is non-negotiable.

Component Configuration (8 components summing to 100%)

Comp ID	Component	Weight %	FF-08 Source	Scoring Logic (high to low)
SC-001	DSCR Strength	25	Q-008 calculator	>=1.40: 25 1.25-1.39: 22 1.20-1.24: 18 1.10-1.19: 14 1.00-1.09: 10 0.80-0.99: 6 <0.80: 0
SC-002	FICO Band	15	Q-006	>=720: 15 680-719: 13 660-679: 11 640-659: 8 620-639: 5 580-619: 3 <580: 0 "rather not say": NO ADJUSTMENT
SC-003	LTV / Down Payment	15	Q-005	<=70%: 15 70-75%: 13 75-80%: 10 80-85%: 6 >85%: 0
SC-004	Reserves Depth	15	Q-007	>=12mo: 15 9-12mo: 13 6-9mo: 10 3-6mo: 6 <3mo: 0 401k at 60% haircut accepted (EG-008)
SC-005	Property Type Cleanliness	10	Q-002	Clean SFR: 10 2-4 unit: 9 Condo (warrantable): 8 ADU (permitted): 8 Non-warr condo: 3 Condotel: 0
SC-006	Documentation Readiness	10	Q-009	Lease+rent schedule+appraisal: 10 Lease+rent schedule: 8 Rent schedule only: 6 No docs: 0
SC-007	Experience Level	5	Q-011	20+ doors: 5 6-20: 4 2-5: 3 First-time: 1
SC-008	Edge-Case Fit Bonus	5	Q-012 (decline letter) + Q-007 (identity track)	Decline-letter surfaces edge case: +5 ITIN indicator: +3 FN indicator: +3 Post-credit-event w/ seasoning: +2. NEVER SUBTRACTS.

Score Modifier Configuration (27 modifiers)

Twelve positive modifiers add points; fifteen negative modifiers subtract. Modifiers trigger on FF-08 form combinations. The binding constraint: false-positive pattern indicators (NP-04 Part 5) do NOT trigger additional negative deltas. The Edge-Case Fit Bonus component (SC-008) is additive-only.

Mod ID	Modifier	Delta	Trigger (FF-08 Q combination)
M-001	Existing lease in place	+5	Q-009: lease documentation
M-002	LLC with operating agreement	+5	Q-010: entity=LLC + doc upload
M-003	12+ mo reserves (extra)	+5	Q-007: reserves >= 12mo
M-004	DSCR >= 1.40 sweet-spot	+3	Q-008: DSCR >= 1.40 AND Q-002: clean SFR
M-005	700+ FICO + 25% down + 1.30 DSCR combo	+5	Q-006+Q-005+Q-008 combo
M-006	STR permit in hand (STR-permissive market)	+5	Q-004 + Q-012 STR follow-up
M-007	FN with US LLC + funds trail	+5	Q-010 + Q-011 FN follow-up
M-008	Permitted ADU with rent schedule	+5	Q-002 + Q-009 ADU documentation
M-009	2-5 doors existing portfolio	+3	Q-011: experience 2-5 doors
M-010	Cash-out refi 65% LTV post-refi	+3	Q-001 + Q-005 combo
M-011	BRRRR refi with rehab budget docs	+5	Q-001 refi + Q-012 BRRRR follow-up
M-012	Decline-letter surfaces EG-006 fit	+15	Q-012: decline letter + EG-006 indicators
M-013	STR in T5 banned market	-10	Q-004 + geo = T5 STR-banned
M-014	Condotel outside Visio/Kiavi	-10	Q-002: condotel + Q-012: no specialty fit
M-015	Non-warrantable condo outside specialty	-8	Q-002 + Q-012 combo
M-016	Primary-residence intent (hard exit)	0 (exit)	Q-001: primary residence
M-017	Sub-1.25 DSCR on cash-out refi	-5	Q-001 cashout + Q-008 DSCR
M-018	Recent mortgage late <12mo	-8	Q-012 credit event + seasoning <12mo
M-019	Reserves shortfall via 401k-only	-3	Q-007 + Q-012 reserves combo
M-020	Appraisal short risk	-5	Q-005 LTV > 80% + Q-004 T3 market

Mod ID	Modifier	Delta	Trigger (FF-08 Q combination)
M-021	Unpermitted ADU as primary rent	-5	Q-002 ADU + Q-012 unpermitted
M-022	Active delinquency (hard exit)	0 (exit)	Q-012 active delinquency
M-023	FN without US LLC	-5	Q-010 + Q-011 FN: no LLC
M-024	Speculative rent (no docs)	-10	Q-009: no documentation
M-025	Sub-\$100K loan (hard exit)	0 (exit)	Q-005: loan < \$100K
M-026	Sub-660 FICO w/o compensators on cashout	-5	Q-006 + Q-001 cashout combo
M-027	Property >50yr without inspection	-3	Q-002 + Q-012 inspection flag

Tier Routing Rules (CRM Workflow)

Tier	Score	CRM Action	SLA	LO Assignment
A	85-100	Create lead + auto-route to senior LO queue + trigger pre-approval letter workflow + priority UW queue flag	1 business hour	Senior LO pool (Tier-A certified)
B	65-84	Create lead + auto-route to specialty LO queue + trigger pre-qual letter + standard UW queue	4 business hours	Specialty LO pool (by persona fit)
C	40-64	Create lead + flag for senior LO review + trigger specialty-lender routing workflow + decline-letter audit task	1 business day	Senior LO review → specialty LO pool
D	0-39	Create lead + trigger defer-with-roadmap email + 30/60/90-day automated re-engagement + decline-letter audit task	24 hours (automated)	No LO assignment (automated nurture)

Pseudocode for Scoring Engine (CRM Workflow)

The following pseudocode is the contract between FF-08 and TS-10. CRM team implements this as a workflow rule:

```
def score_lead(form_payload):
    score = 0
    modifiers = []

    # Component scoring (sum to 100)
    score += dscr_strength(form_payload.Q008) # max 25
    score += fico_band(form_payload.Q006) # max 15
```

```

score += ltv_strength(form_payload.Q005) # max 15
score += reserves_depth(form_payload.Q007) # max 15
score += property_type(form_payload.Q002) # max 10
score += doc_readiness(form_payload.Q009) # max 10
score += experience_level(form_payload.Q011) # max 5
score += edge_case_bonus(form_payload.Q012, Q010, Q007) # max 5, ADDITIVE ONLY

# Hard exits (binary disqualifiers)
if form_payload.Q001 == "primary_residence":
    return {"score": 0, "tier": "D", "exit": "HEX-001",
            "message": "DSCR loans are for investment properties. See conventional resources."}
if form_payload.Q012 == "active_delinquency":
    return {"score": 0, "tier": "D", "exit": "HEX-009", ...}
if form_payload.Q05_loan_amount < 100000:
    return {"score": 0, "tier": "D", "exit": "HEX-012", ...}
if form_payload.Q02 == "pure_commercial":
    return {"score": 0, "tier": "D", "exit": "HEX-013", ...}

# Modifiers (12 positive + 15 negative)
if form_payload.Q009 has "lease": modifiers.append(("+5", "M-001 lease"))
if form_payload.Q010 == "LLC" and has "operating_agreement": modifiers.append(("+5",
"M-002 LLC"))
# ... (all 27 modifiers)

score = max(0, min(100, score + sum(modifier deltas)))

# Tier routing
if score >= 85: tier = "A"
elif score >= 65: tier = "B"
elif score >= 40: tier = "C"
else: tier = "D"

return {
    "score": score,
    "tier": tier,
    "modifiers_applied": modifiers,
    "persona_match": classify_persona(form_payload),
    "edge_case_indicators": detect_edge_cases(form_payload),
    "next_best_action": NBA[tier]
}

```

BINDING COMPLIANCE CONSTRAINT

"I'd rather not say" on Q-006 (FICO) and Q-012 (decline-letter) must NOT trigger downward score adjustments. This is Reg B § 1002.5(b)(1). The `fico_band()` and `edge_case_bonus()` functions must return a neutral score (use the persona's typical-band midpoint, not 0) when "rather not say" is selected. CRM team must implement this as a unit test before launch.

SECTION 3

Meta Ad-Set Buildout (Ad-Ops Team)

Meta ad-set buildout covers 8 ad sets under the HOUSING Special Ad Category. The critical constraints are: (1) no lookalike audiences based on lead form data (only customer-file-based lookalikes allowed), (2) no ZIP-level targeting (state + DMA only), (3) lead-form questions on Meta lead forms are limited to name, email, phone — all FF-08 questions beyond those must be deferred to the landing page, (4) creative must use V2 hooks with self-qualifying microcopy embedded, (5) optimization event is Tier_Routed_A_or_B (not Form_Complete).

Campaign Structure

Campaign	Ad Set	Special Ad Category	Budget (Daily)	Bid Cap	Creative	Targeting
DSCR-MET A-001	AS-001 Broad Investor (National)	HOUSING	\$200	\$35	SA-001 + SA-002 + SA-004 PI hooks (rotate weekly)	Customer-file lookalike + website visitors 30d + calculator users 90d. Exclude: primary-residence searchers, conventional-mortgage intenders, T5 markets
DSCR-MET A-001	AS-002 STR Specialist (Compliant Broad)	HOUSING	\$100	\$40	SA-007 PI + PA hooks	Custom: STR calculator users, AirDNA tool users. Interest broad: Real estate investing. Exclude: T5 STR-banned DMAs
DSCR-MET A-001	AS-003 Portfolio Scaler (LinkedIn cross-channel)	HOUSING	\$80	\$45	SA-002 PS + PA hooks (LinkedIn primary)	Customer-file lookalike (funded-loan customers 6+ doors). Exclude: first-time investors, single-property borrowers
DSCR-MET A-001	AS-004 FN Specialist (Compliant Broad)	HOUSING	\$80	\$40	SA-005 + SA-006 PS hooks (feature-language only)	Custom: FN calculator users. Exclude: T5 markets, primary-residence searchers. NO language targeting (SAC)
DSCR-MET A-001	AS-005 Credit-Scarred Cash-Rich	HOUSING	\$60	\$35	SA-008 PA + PS hooks (seasoning-window framing)	Customer-file lookalike (post-credit-event funded borrowers). Exclude: active-delinquency indicators
DSCR-MET A-001	AS-006 First-Time Investor (Calculator-Led)	HOUSING	\$60	\$30	SA-003 PI + PS hooks (calculator lead magnet)	Custom: calculator users 90d. Interest broad: Real estate investing, rental property. Exclude: 20+ door experienced investors

Campaign	Ad Set	Special Ad Category	Budget (Daily)	Bid Cap	Creative	Targeting
DSCR-MET A-001	AS-007 ADU + Hybrid Rental	HOUSING	\$50	\$30	SA-008 (ADU subset) + new ADU persona hooks	Custom: ADU calculator users. Geo: CA, TX, FL, WA (ADU-permissive states). Exclude: T5 markets
DSCR-MET A-001	AS-008 Edge-Case Triage (Decline-Letter)	HOUSING	\$50	\$40	SA-011 + EG-001 + EG-005 + EG-006 + EG-007 + EG-008 decline-letter hooks	Customer-file lookalike (declined-elsewhere funded borrowers). Exclude: first-time investors

Conversion Tracking Configuration

The Meta pixel must fire the following events in sequence. The optimization event is Tier_Routed_A_or_B (event 3 below). This is the single most important configuration decision in the entire rollout.

Event #	Event Name	Trigger	Optimization Use	Notes
1	Form_Start	User clicks first form field on landing page	No	Funnel tracking only
2	Form_Complete	User submits FF-08 form	No	NOT the optimization event
3	Tier_Routed	CRM fires server-side event with tier parameter (A, B, C, or D)	YES — optimize for tier=A OR tier=B	THE optimization event. Server-side via Conversions API.
4	LO_Call_Scheduled	User books LO call via Calendly	No	Secondary signal
5	PreApproval_Issued	CRM fires when LO issues pre-approval letter	No	Funded-loan proxy
6	Loan_Funded	CRM fires when loan closes	No	Long-term KPI

CRITICAL CONFIGURATION WARNING

If Meta is configured to optimize for Form_Complete (event 2) instead of Tier_Routed_A_or_B (event 3), the platform will learn to attract Tier D leads (decline cohorts who complete forms but cannot be funded) because Tier D leads convert at higher volume. Cost per funded loan will degrade within 30 days. This is the single most common paid-social failure mode in mortgage marketing. Lock the optimization event at the campaign level before launch. Do NOT change without a controlled A/B test.

SECTION 4

Google Ad-Group Structure (Ad-Ops Team)

Google Search is the cleanest high-intent channel for persona-specific DSCR demand. The structure includes 12 ad groups (one per persona) plus an edge-case bundle ad group. Google is NOT subject to Meta SAC restrictions, so language targeting for bilingual campaigns (EG-002, SA-010) is permitted. Each persona maps to its V2 landing page with the lead-magnet CTA above the fold.

Campaign Structure

Campaign	Ad Group	Persona	Match Type	Target CPA	Landing Page
DSCR-GOOG-001	AG-001 Portfolio Scaler	SA-002	Exact + Phrase	\$280	SA-002 V2 landing (portfolio-blanket-loan)
DSCR-GOOG-001	AG-002 Cash-Flow Optimizer	SA-001	Exact + Phrase	\$220	SA-001 V2 landing (self-employed-dscr)
DSCR-GOOG-001	AG-003 Equity-Tapping Refinancer	SA-004	Exact + Phrase	\$240	SA-004 V2 landing (cash-out-refi-dscr)
DSCR-GOOG-001	AG-004 STR Operator	SA-007	Exact + Phrase	\$260	SA-007 V2 landing (str-dscr)
DSCR-GOOG-001	AG-005 First-Time Investor	SA-003	Exact + Phrase	\$180	SA-003 V2 landing (first-rental-dscr)
DSCR-GOOG-001	AG-006 Strong-Credit FN	SA-005	Exact + Phrase	\$280	SA-005 V2 landing (foreign-national-dscr)
DSCR-GOOG-001	AG-007 No-Credit FN	SA-006	Exact + Phrase	\$300	SA-006 V2 landing (no-credit-fn-dscr)
DSCR-GOOG-001	AG-008 Credit-Scarred Rebuilder	SA-008	Exact + Phrase	\$200	SA-008 V2 landing (post-credit-event-dscr)
DSCR-GOOG-001	AG-009 ITIN US-Resident (Bilingual)	SA-010	Exact + Phrase	\$220	SA-010 V2 landing (itin-investor-dscr) — bilingual
DSCR-GOOG-001	AG-010 Compensated-Exception	SA-011	Exact + Phrase	\$140	SA-011 V2 landing (decline-letter-audit)
DSCR-GOOG-001	AG-011 BRRRR Refinance Cyclist	SA-012	Exact + Phrase	\$200	SA-012 V2 landing (brrrr-refi-dscr)
DSCR-GOOG-001	AG-012 ADU + Hybrid Rental	SA-008 (ADU subset)	Exact + Phrase	\$200	SA-008-ADU V2 landing (adu-income-dscr)
DSCR-GOOG-001	AG-013 Edge-Case Bundle	EG-001 through EG-008	Exact + Phrase	\$140	EG-bundle V2 landing (specialty-dscr)

Negative Keyword Master List

Apply these negative keywords at the campaign level to prevent wasted spend on non-DSCR-intent searches:

Category	Negative Keywords
Primary-residence	primary residence, primary home, first time home buyer, first time homebuyer, fha loan, va loan, usda loan, conventional mortgage, owner occupied, owner-occupied
No-money-down	no money down, no down payment, zero down, free house, grant, down payment assistance, dpa
Reverse/specialty-non-DSCR	reverse mortgage, hecm, home equity loan, heloc, second mortgage, bridge loan, hard money (exclude: hard money investors ok)
Generic-mortgage	mortgage rates, refinance rates, mortgage calculator (general), best mortgage lender, mortgage broker (generic)
Commercial-real-estate	commercial mortgage, commercial loan, commercial real estate loan, cre loan, multifamily loan (5+ units), apartment building loan
Construction	construction loan, construction to perm, build a house, new construction, ground up construction
Government	fha 203k, fha streamline, va irrrl, va cash out, usda rural
Unrelated	payday loan, personal loan, auto loan, student loan, business loan, sba loan

Sample Exact-Match Keywords (AG-001 Portfolio Scaler)

```
# AG-001 Portfolio Scaler - SA-002
[dscr portfolio loan]
[dscr blanket loan]
[dscr loan multiple properties]
[investor portfolio loan]
[rental portfolio refinance]
[dscr loan 6 doors]
[dscr loan 10 doors]
[dscr loan llc]
[no dti investor mortgage]
[landlord loan no income]

# Phrase match
"portfolio dscr loan"
"blanket mortgage rental properties"
"investor mortgage no dti"
"dscr refinance multiple rentals"
```

SECTION 5

CRM Routing Rules and SLA Matrix

CRM routing rules consume the TS-10 score output and assign leads to LO queues with SLA tracking. The rules below are the contract between the CRM team and the LO operations team. SLA breaches trigger escalation to the LO operations manager.

Tier	Score	LO Pool	SLA	Escalation Trigger	Auto-Actions
A	85-100	Senior LO Pool (Tier-A certified, 4 LOs)	1 business hour to first contact	Escalate to LO Ops Manager at 2hr if no contact	Auto-create lead, trigger pre-approval letter workflow, flag priority UW queue, send SMS+email+call-task to LO
B	65-84	Specialty LO Pool (by persona fit, 6 LOs)	4 business hours to first contact	Escalate at 6hr	Auto-create lead, trigger pre-qual letter, standard UW queue, send email+call-task
C	40-64	Senior LO Review → Specialty LO Pool	1 business day for senior review; 2 business days for specialty routing	Escalate at 3 business days	Auto-create lead, flag for senior review, trigger specialty-lender routing workflow, decline-letter audit task
D	0-39	No LO assignment (automated nurture)	24 hours automated email + 30/60/90-day re-engagement	No escalation (automated)	Auto-create lead, trigger defer-with-roadmap email, schedule 30/60/90-day re-engagement emails, decline-letter audit task

Specialty LO Pool Configuration (8 Specialty LOs)

The Specialty LO Pool handles Tier C edge-case routing. Each LO has a persona specialty. The CRM auto-assigns based on the persona_match field returned by the scoring engine.

Specialty LO	Persona Specialty	Lender Relationships	Capacity (leads/week)
LO-001	EG-001 Post-Short-Sale + SA-008 Credit-Scarred	Bluestone, AHLend, America Mortgages	15
LO-002	EG-002 ITIN + SA-010 ITIN	AHLend, America Mortgages (bilingual)	10
LO-003	EG-003 + SA-005 + SA-006 Foreign National	AHLend, America, Angel Oak, A&D;, HomeAbroad	15
LO-004	EG-004 Sub-1.0 DSCR with Compensators	Newfi, AHLend, Lendmire, America	10
LO-005	EG-005 Unpermitted-ADU Pivot + SA-008 ADU	Harpoon Capital, Truss, Rize	10
LO-006	EG-006 Non-Warrantable Condo	Truss, Bluestone, Lendmire, Brookmont	12
LO-007	EG-007 Condotel STR	Visio Lending, Kiavi	8
LO-008	EG-008 401(k)-Reserves + SA-011 Compensated-Exception	Lendmire (no-reserve program) + all GL-02 lenders	12

SECTION 6

A/B Test Calendar (Months 1-3)

The A/B test calendar loads 9 tests across months 1-3. Each test runs for 2 weeks minimum with statistical significance required (95% confidence, minimum 100 conversions per variant). Tests are sequenced to avoid audience overlap and to build learning from prior tests.

Test #	Month	Channel	Persona	Test	Variants	Primary Metric	Decision
T-001	M1	Meta	SA-001	Hook category test	PI vs PA vs PS (3 variants)	Cost per Tier A-or-B lead	Pick top performer for M2 scale
T-002	M1	Meta	SA-002	Hook category test	PI vs PA vs PS (3 variants)	Cost per Tier A-or-B lead	Pick top performer for M2 scale
T-003	M1	Google	SA-001 + SA-002 + SA-004	Match type test	Exact vs Phrase (per ad group)	Cost per Tier A lead	Allocate budget to winner per ad group
T-004	M2	Meta	SA-007 + SA-003 + SA-005	Hook category test	PI vs PA vs PS (3 variants per persona)	Cost per Tier A-or-B lead	Pick top performer per persona
T-005	M2	YouTube	SA-001 + SA-002 + SA-004	Pre-roll length test	15s vs 30s	Cost per view + view-through to landing page	Pick top performer per persona
T-006	M2	Landing page	SA-001 + SA-002	Lead magnet placement test	Above-fold vs below-fold	Email capture rate + form-start rate	Pick winner for M3 standard
T-007	M3	Landing page	SA-001 + SA-002 + SA-004	Hook A vs B vs C (V2 hooks)	3 hook variants per persona	Form-start rate + Tier A-or-B rate	Pick top performer per persona for Q2 scale
T-008	M3	Form	All personas	Question count test	12-question vs 9-question condensed	Form completion rate + tier distribution	Pick winner for Q2 standard

Test #	Month	Channel	Persona	Test	Variants	Primary Metric	Decision
T-009	M3	Meta + Google	SA-011 + EG-001	Decline-letter hook test	PI vs PA (2 variants per persona)	Cost per Tier C lead + decline-letter upload rate	Pick top performer for Q2 edge-case scale

TEST DISCIPLINE

Tests must run for minimum 2 weeks AND reach 95% statistical confidence AND minimum 100 conversions per variant before declaring a winner. Early calls based on 1-week data are the #1 cause of false-positive test results in mortgage marketing. If a test does not reach significance in 3 weeks, extend to 4 weeks. If still not significant, declare inconclusive and move to the next test.

SECTION 7

Reporting Dashboard Spec (14 KPIs)

The reporting dashboard is the swarm's operational health monitor. It refreshes daily, with weekly review by marketing-ops and monthly review by leadership. The dashboard lives in the CRM (for funnel + funded-loan KPIs) and ad platforms (for channel KPIs), with a unified view in a BI tool (Tableau/Looker/Power BI).

KPI #	Category	KPI	Source	Refresh Cadence	Target
K-0 1	Funnel Volume	Form completions	CRM	Daily	M1: 200/M, M2: 400/M, M3: 600/M
K-0 2	Funnel Volume	Tier A leads	CRM	Daily	M1: 20/M, M2: 50/M, M3: 80/M
K-0 3	Funnel Volume	Tier A-or-B leads	CRM	Daily	M1: 60/M, M2: 130/M, M3: 200/M
K-0 4	Funnel Quality	Tier A-or-B rate	CRM	Daily	>=33%
K-0 5	Funnel Quality	Persona fit rate (top-3)	CRM	Weekly	>=55%
K-0 6	Funnel Quality	Documentation upload rate	CRM	Weekly	>=60%
K-0 7	Funded Economics	Cost per Tier A-or-B lead	Ad platforms + CRM	Weekly	M1: \$280, M2: \$250, M3: \$220
K-0 8	Funded Economics	Cost per pre-qual letter	CRM	Weekly	M1: \$1,500, M2: \$1,300, M3: \$1,100
K-0 9	Funded Economics	Cost per loan in UW	CRM	Weekly	M1: \$5,000, M2: \$4,500, M3: \$4,000
